

MEMORANDUM OF UNDERSTANDING

This preliminary Memorandum of Understanding ("MOU") is executed on this day of 17th May 2013 by and between JNTU Kakinada and Career Analytics a unit of ProProfessionals Pvt. Ltd.

JNTU-K is a renowned university offering quality education in technology and science at the graduate, post graduate and research levels. Career Analytics is a global career management and training entity that services students and professionals in India, UK and US.

Career Analytics will provide basic and premium Career Management services to the students of JNTU-K. The basic services will be provided FREE for JNTU-K and to its constituent colleges.

These will include the following:

- Career situations – compilation of experiences
- 1:1 career consultation
- Basic level review of resume
- Basic level interview assessment
- Expert tips in various domains
- Access to Global certification information
- Opportunity to participate in forums and blogs
- Expert videos and testimonials
- Information on eBooks

JNTU-K will provide network facilities and infrastructural support to facilitate the successful roll-out of both basic and premium services at constituent colleges of JNTUK.

Career Analytics will provide an opportunity to JNTU-K Faculty and Scholars to register as CARE (Career Analytics Registered Experts) and mentor the global clientele of Career Analytics.

Complementing JNTU-K courses through our training and placements business unit with training on latest technologies like

- Big Data - Hadoop, MAP REDUCE, etc.
- BI tools – Informatica, SSIS, SAS, Cognos, OBIEE, MicroStrategy, etc.
- JAVA technologies – JAVA JSP, Servlet, J2EE, etc.
- Open Source CMS – Drupal, Life Ray, Joomla, WP, etc.
- Open Source CRM – SugarCRM, vTiger, etc.
- Application Server – Apache Tomcat, etc.
- Mobile App Development – iOS, Android, Windows Mobile.
- Infrastructure training – Servers, Disks, Backup and archive, etc.

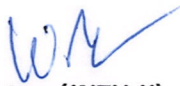

In addition to the basic services, as a gesture of goodwill, Career Analytics will offer specific premium consulting services to JNTU-K. These are exclusive to this MOU and the intellectual property will not be shared by JNTU-K with any other organization including affiliates. These will include the following:

- Designing customized assignments and projects to complement existing JNTU-K IT course curriculum. These will be designed and implemented based on latest industry and technology trends by the industry experts of Career Analytics. These can include customized assignments for the subjects like C language, Data Structures, Software Engineering etc. relative to organizational needs.
- Reviewing and suggesting periodic updates of the JNTU-K CSE/IT curriculum as per industry trends and market needs.
